YOUR OCTOBER HOROSCOPE

Will your sex life this month be a treat or a trick?

ARIES Rams are ready do what rams do best, ramming! You'll feel the mood right from the first of the month and you'll find someone who wants to feel it too, around the 6th. Your attractiveness factor is on the upswing, especially around the 18th, so me see you swing it. The 28th-30th will be your happiest hump days!

TAURUS October finds you needing to go deep, as in inside yourself, before you go into deep thrusting. Spend some time thinking about what you want and need until around the 7th. By the 9th you'll have some clarity and will be better able to have all those needs met by others. By month's end you'll be giving AND getting some pretty hot stuff!

GEMINI If there's one thing you should remember this month, its: communication +exploration=hot times in the bedroom! You need to know this, cause you're in for the kind of rough ride you don't want early in the month. To get to the kind you DO want, hang in there until the 13th, and practice what I preach. By the 22nd, the pleasure will be all yours.

CANCER You'll benefit this month from some early introspectiveness. You've been working way too hard and not enough with some far more entertaining hard things! That will shift on the 9th if you really want it (and I know you REALLY want it!). The 12th will find you feeling sexy, and that's just how others will find you. Use this get-lucky luck, all through month's end.

LEO Okay, Leo, I'm not going to sugar-coat it, the first half of this month is all about cooling your sexual jets, period. It's down-time downstairs and you'll just have to deal with it! Around the 16th, though, the tide turns and you're suddenly ready to roar. The 21st is a great night to strut your stuff in hopes of a little muffin stuff!

VRIGO I want you to spend the beginning of the month envisioning all the wild sex you'd like to have. If you're particularly clever about this, I predict a visit from the wild sex fairy could happen as early as the 14th. The 20th and 21st could find you reaching dramatic new heights of ecstasy. I'd stock up early on the lube!

LIBRA FOXY BIRTHDAY LIBRAS! Lucky you, your month starts out on fire and just gets hotter. Be careful or all that friction will generate smoke! I don't know if you'll accomplish much more than endlessly orgasmic sex, but you probably won't care. Enjoy the ride!

SCORPIO The early part of the month finds you enjoying a fall fling. But is it no-strings? Spend the 7th in some undercover investigations and see what you think. The 15th will find you deciding whether to stay or go. Whatever you decide, the stars say the 22nd will be your sultriest sex day.

SAGITTARIUS If last month left you with some unfulfilled desires, you'll get more satisfaction in October. It's strange, but the stars say you'll have a hot sexual encounter combined with outdoor exercise on the 7th. Stopping for a quick shag in the middle of the marathon? Who knows! Whatever it is, enjoy it, it'll be a proud and kinky addition to your blog!

CAPRICORN From the first of the month, you'll feel like counting your sexual blessings and adding some more to the tally. Your feelings of contentment will last all month long, so make some time for making time. Your pleased partners will be certain they won the sex lottery, and the more you play, the more you win!

AQUARIUS October is one hot month for you! You'll find yourself the center of some lusty attention from nearly every direction. Take your time in choosing the right one or don't pick and have an orgy instead! The 7th,13th and 18th hold the most sexual fulfillment in store for you, but the rest of the month won't be bad, either.

PISCES The 4th and 5th of this month find your sex life ready to rise, again and again. Take your sexy self out on the town and get ready to get down! The best days to prowl are the 15th-16th. Once you've found what you're looking for you can be assertive. Your sex appeal will work wonders by month's end.
