

# FOXY MOXY ASTROLOGY

## YOUR AUGUST HOROSCOPE

*End summer with a bang!*

**ARIES** Though your thoughts often turn to the topic of "getting' some", you forget that others aren't instantly aware of your every need. Make your desires known to the objects of your red-hot affection, and start right away! The first and second are key days for action, if you wish to spend the rest of the month immersed in passion, so rise early to this occasion.

**TAURUS** Your recent all work and "no play" attitude, is going to translate into "no lay" this month for you. It's time to take something more fun than extra work home! The 10th - 13th are days to evaluate what (and who) else you want besides success. By the 20th you just might find someone who's looking for a little summer fun with you!

**GEMINI** August finds this sign feeling the heat. That's "in heat" and on the prowl! Your attractiveness factor is way up right now, and you'll be turning heads wherever you go. Anyone who isn't instantly under your spell, isn't worth your time. Your time this month will be best spent leaving ripped sheets in your wake!

**CANCER** You spent last month feeling frisky and getting busy but August finds romance ready to knock on your door. On the 6th and 7th, you're ready to let the love in! A hot end-of-summer fling could easily turn to more, and may be just what you've been waiting for. Enjoy some wild times this month before settling in for sweet romance.

**LEO** **FOXY BIRTHDAY, LIONS!** It's time for a little Rumble in the Jungle! The king of beasts is ready to indulge in a carnal feast. Your birthday banquet plans get rolling around the 6th, and your take-charge approach will ensure success. You know who you want to spend time with in your birthday suit, and this month, from the 13th on, will be full of quality time.

**VRIGO** August finds you playing coy, even though you know deep inside, that a certain someone has set you on fire. You can't deny it, and no one will believe you anyway, so why not go for it? The 14th and 15th have potential for your biggest bang this summer, so let your inner beast out to play. Work through your shyness on the 20th and you could be enjoying delicious kinkiness on the 25th!

**LIBRA** This month finds you travel-weary and you feel like sticking close to home. No matter, you can bone up on some good summer erotic reading while you're resting up. Though early August doesn't have much action in store for you, it won't hurt to have some sensuous suggestions ready. Your sex life will heat back up with a vengeance at month's end!

**SCORPIO** You're about to make someone very happy, over-and-over this month! Your charisma factor is off the charts, but I have to tell you, you can only please one person at a time right now. So save the orgy plans for later and enjoy what's on your plate. The 20th is the day you'll question your choice of partner. Whether you decide to play for keeps, or trade in for something shiny and new, you'll have no trouble finishing out August with some scorching times between the sheets!

**SAGITTARIUS** You've been dwelling on some past romantic baggage lately that could really drag you down. Fortunately, the 3rd - 5th present you with the opportunity for a torrid affair so hot, you'll forget that life is any other way! You'll find erogenous zones ahead if you continue, but taking a break on the 16th and 17th is advisable. The 29th is going to be "one of those days", so be prepared to ride it out.

**CAPRICORN** It's a good month for all you goats. Accept any and all invitations to parties on the 4th and 5th. It'll be prime time for some happy, horny hook-ups! In fact, those days you'll be so successful, you can host your own orgy by month's end. Happy humping!

**AQUARIUS** August starts off somewhat slow for Aquarians, so you'll be pleasantly surprised by some heavy flirting on the 8th - 10th. Jump on this opportunity and you can turn it into heavy petting by the 13th! Pack a picnic on the 19th and prepare to "eat out"! Suddenly summer seems like your sexiest season yet.

**PISCES** Here's a month to sit back and let situations work themselves out. Just stay your sexy self and don't sweat stuff you don't have to. By the 21st you'll be able to take charge and get your satisfaction, which will be greater for having played it cool up 'til then. The month will end on a high note if you declare your life a "drama-free zone" now!
